Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Tuesday 05 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Wet and windy across central areas, drier elsewhere.

Today:
Cloud and rain, heavy at times across Wales, southern Scotland, central and northern England slowly moving east. Otherwise bright with sunny spells but also a few showers in the west. Windy, especially near coast in south and east.

Tonight:
Rain in the east slowly clearing. Otherwise clear spells and a few showers in the west and southwest. Breezy with strong winds in east.

Wednesday:
Any lingering rain in far east soon clearing. Dry with some sunshine, but cloud increasing in west with further rain sweeping northeastwards across Northern Ireland reaching northwest Britain later.

Outlook for Thursday to Saturday:
Rain, heavy and persistent at times, will affect parts of Scotland and Northern Ireland. Dry elsewhere with variable cloud, sunny spells and overnight fog patches. Warmer than of late.
